

SHUBHAM KOSHTI

+91 8407982839 | koshtishubham04@gmail.com | [LinkedIn](#) | [GitHub](#)

Skills

• Python • Flask • Django • Django Ninja • SQL • PostgreSQL • Machine Learning • OpenCV • FastAPI

Languages

English, Hindi, Marathi

Work Experience

Software Developer

Dec 2023 – Jun 2024

e-Beta innovations LLP

Technologies: Python • Flask • Flask-RESTful • Django • API

- Developed server-side logic for web applications using Python, focusing on backend development.
- Utilized frameworks like Flask and Django to streamline and enhance backend processes.

Projects

Raw SQL Query Performer Platform

Technologies: Python • Django • Flask • MySQL • PostgreSQL • Gunicorn • Django Ninja

- Manage a raw SQL query execution platform using Django Ninja, enabling dynamic and secure interaction with backend databases like PostgreSQL and MySQL.
- Designed and implemented RESTful API endpoints for executing and managing SQL queries, with a focus on input validation, security, and performance optimization.
- Deployed the platform with Gunicorn in a production environment, ensuring scalability, reliability, and secure database connectivity.

Real Life Game Streaming

Technologies: Python • Machine Learning • OpenCV • Pandas • Matplotlib • MediaPipe

- Implemented real-time pose estimation using MediaPipe and OpenCV to translate player movements into in-game controls.
- Integrated PyAutoGUI to send keystrokes to VR games, enabling body-controlled gameplay at 20 FPS.

Early Prediction of Parkinson's Disease using Deep Learning

Technologies: Python • Flask • Deep Learning • Convolutional Neural Networks • Tensorflow • NumPy • Pandas

- Developed a deep learning model using Convolutional Neural Networks (CNNs) with TensorFlow to diagnose Parkinson's disease from medical scans or MRI samples.
- Utilized ResNet50 and VGG16 architectures with average pooling layers, achieving over 97.8% accuracy in differentiating Parkinson's patients from healthy individuals.
- Implemented an ensemble model to enhance diagnostic precision, potentially aiding doctors in more accurate Parkinson's diagnoses.

Education

Bachelor of Engineering in Artificial Intelligence

Jul 2021 – Jul 2024 • 3 yrs

G H Raison College Of Engineering And Management, Pune, India

• CGPA: **8.72** (Savitribai Phule Pune University)

Diploma in Computer Engineering

Jul 2018 – Jul 2021 • 3 yrs

Government Polytechnic, Jalgaon, India

• Percentages: **89.60** (Maharashtra State Board of Technical Education)

Certifications & Awards

- Research Paper of Parkinson's Disease using Deep Learning Certificate - Springer, Government Of India
- Copyright On Parkinson's Disease Project Poster and Certificate - Copyright Office, Government Of India
- Machine Learning - Dimensionality Reduction certificate - cognitiveclass.ai by IBM Developer Skills Network
- Google Analytics and Advanced Google Analytics Certificate - Google Analytics Academy
